FIRMette #10 was created based on the following flood event (approximate location):

Sep 27, 2024, Wise County - Minor flooding occurred south of Pound due to heavy rain from Tropical Storm Helene, with streams nearing the tops of banks.

Storm Events Database

Event Details:

Event	Flash Flood
-- Flood Cause	Heavy Rain / Tropical System
State	VIRGINIA
County/Area	WISE
WFO	MRX
Report Source	Public
NCEI Data Source	CSV
Begin Date	2024-09-27 11:16 EST-5
Begin Location	4SSW POUND
End Date	2024-09-27 13:00 EST-5
End Location	2NE DEWEY
Deaths Direct/Indirect	0/0 (fatality details below, when available...)
Injuries Direct/Indirect	0/0
Property Damage	0.00K
Crop Damage	0.00K
Episode Narrative	Tropical Storm Helene caps off a several day heavy rainfall event in association with a stalled closed upper low with additional rain yielding catastrophic flash and river flooding, and significant wind damage as wet soils and strong wind gusts led to forest damage.
Event Narrative	Minor flooding reported south of Pound. Streams nearing top of banks in the area.

Legend

SEE FIS REPORT FOR DETAILED LEGEND AND INDEX MAP FOR FIRM PANEL LAYOUT

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards.

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 1/23/2025 at 9:08 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.
